

Press Conference & Rally for ACA 1

LOCAL JOBS. LOCAL INVESTMENT. LOCAL CONTROL.

Thursday, August 17 | 11 a.m. | West Steps, State Capitol

- ACA 1 encourages local investment in desperately needed housing and housing-supportive infrastructure by lowering the local vote threshold for local bond and special tax measures from two-thirds to 55%.
- Local Governments have become captive to funding local projects with state taxpayer-funded bonds and special projects because a two-thirds vote is unattainable in many communities.
- ACA 1 requires historic transparency and accountability measures, including specific expenditure plans, citizens commission oversight, annual audits, and public notice.

Let's stand together for local progress, development, and control. Your support matters!
